

Paper Pieced Ornaments 2012

It's never too early to begin celebrating the holidays! At this meeting if you stay and sew we will be making one-of-a-kind foundation pieced ornaments. If you've struggled with precision, then you'll love paper piecing. You'll be surprised how easy it is to tackle such small pieces. And the best part - go home with several finished ornaments that will be perfect to hang on your tree, decorate a package, or to include with a card. Each sewing participant will be provided six ornament patterns.

Supplies:

Sewing Machine and Accessories
Open Toe Foot
