

***“Under the Water, Over the Top”***

***Janelle “Jan” Girod***

This is your chance to use many of those new products you may only have read about or heard others talk about to create a “journal size” quilted seascape. Come prepared to play and enjoy creating a one of a kind piece of “art.”

Kits will include such items as:

Angelina

Tyvek

Cellophane

Foil

Sheers-organza & netting

Embellishments

Mistyfuse

Supplies you will each need to bring:

Fabric for background; think “sea” – this can be blue, turquoise, blue-green, a sea batik (subtle) – pre-cut this background fabric to 8 ½” x 11” (portrait/vertical orientation). *Do not back it with anything; you will be fusing it to Pellon Peltex 70 in class.*

Fabric for the back of your wall art. (Backing at least 9 ½”x12”) *If you choose a traditional binding you will need more matching fabric.*

Sewing machine in good working order and manual

Basic sewing supplies: including a rotary cutter & small mat (I will bring a couple of small mats so not everyone needs to bring a mat); scissors- paper and fabric

Threads: bring a variety... variegated cottons, such as Sulky Blendables look nice for both hand and machine work; rayons, and metallics

Well-ventilated space and/or dust mask. This is for safety, if you have any respiratory problems, we will be heating and burning various products that give off a slight odor. *We will be using irons, heat guns, soldering iron or a wood burner to distort some of the items in the kit.*
